This product may only be used within 100 feet of man-made structures to control California and Townsend Ground Squirrels in California, Nevada, Oregon, Washington, Idaho, Arizona, New Mexico and Utah only. Ground Squirrel Bait by Wilco is actually impregnated with the insecticide Tofquat.

Active ingredient:

Diaphorone (CAS#121066)............................................. 0.0003%

Other ingredients............................................ 99.995%

Total.......................................................... 100.00%

This product is extremely toxic to mammals and birds. Dogs, cats and other pets may be killed if they eat treated food. This product contains the anticoagulant Diphacinone. If swallowed, this material may reduce the clotting ability of the blood and may cause death. Dogs, cats and other pets may be killed if they eat treated food, if other members of the species feed upon treated food, or if they feed upon baits to which treated food has been added. If eaten, this material can cause death.

Do not apply this product by any method not specified on this label. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read the entire label and follow all use directions and use precautions. Use only for the sites, pets, and application directions described on this label. Do not apply this product by any method not specified on this label. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WARNING: To the extent not prohibited by applicable law, Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

Environmentally Hazardous: This product is extremely toxic to mammals and birds. Dogs, cats and other pets may be killed if they eat treated food. This product contains the anticoagulant Diphacinone.
